STEVE LAM, SE  
Senior Civil Engineer  
County of Los Angeles CA

Dear Mr. Walls,

The ICC Los Angeles Basin Chapter represents 89 jurisdictions in the Southern California region. Established back in 1957, our membership has been active and is very familiar with the code adoption process.

On October 8, 2009 during its scheduled monthly business meeting, the ICC Los Angeles Basin Chapter by a majority vote unanimously supported the Emergency Regulations of Chapter 16A titled "NONPOTABLE WATER REUSE SYSTEMS" (Graywater Systems) and the adoption of the 2010 Codes proposed by HCD, but recommends the attached amendments be included as part of the proposed language. The motion that was passed stated the following:

"ICC Los Angeles Basin Chapter strongly recommends amending the Emergency Regulations titled "NONPOTABLE WATER REUSE SYSTEMS" (Graywater Systems) and the adoption of the 2010 codes proposed by HCD and fully supports the inclusion of the attached amendments."

While expressing our concern about the Emergency Regulations, the ICC Los Angeles Basin Chapter would like to affirm it's commitment to enforcing the code as mandated by State law.

Sincerely,  

Roy Itani, P.E.  
Board President  
ICC Los Angeles Basin Chapter
