

Are You Prepared for the 2010 CBC, CRC & CGBSC ??

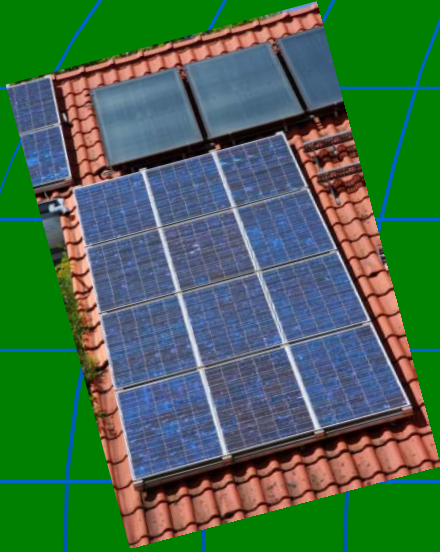

Beginning on
January 1, 2011,
several NEW
BUILDING
CODES will be
enforced in
California.

All architects, engineers,
designers and contractors MUST
be familiar with the new codes, or
projects will NOT be approved.

For training
information, visit
www.icclabc.org;
www.calbo.org; or
speak with your
local Building
Official

Important Facts about the CBC, CRC & CGBSC

All structures other than one and two family dwellings and townhomes will be built under the NEW 2010 California Building Code (CBC).

The 2010 CBC and CRC are based on the International Building and Residential Code (IBC and IRC).

Beginning in 2011, one and two family dwellings and townhomes will be built under the NEW 2010 California Residential Code (CRC).

The 2010 CGBSC is the first-in-the-nation to enforce mandatory Green Building Standards Code (CALGreen). Homes and buildings will be more energy efficient.
