The Fire and Life Safety Committee shall provide and report to the membership on topics related to the California and ICC codes and other applicable codes and standards. The goals and tasks of the committee include but not limited to the following:

1. Review the latest and proposed versions of the ICC model codes and California codes pertaining to fire and life safety provisions and their applicability for enforcement by local jurisdictions.
2. Provide recommendations to the membership provisions that are more restrictive based on local climatic, geological, or topographical conditions.
3. Develop code development program tasked to review proposed code provisions of the California and ICC codes and provide recommendations and revisions as necessary.
4. Update and maintain Chapter plan review checklists and other documents/ policies as they relate to fire and life safety issues.
5. Coordinate with local jurisdictions and Chapters for consistency in an effort to reduce local amendments and maintain similar code interpretations pertaining to life and safety issues.
6. Provide reports, presentations, and training to the membership on other federal, state, and regional issues and topics pertaining to fire and life safety issues.
